USDA RURAL DEVELOPMENT ASSISTS VILLAGE OF TRUMBULL

Lincoln, Neb., May 19, 2005—The United States Department of Agriculture (USDA) Rural Development awarded a \$405,000 loan and \$877,000 in grants to the Village of Trumbull, Neb. Funds will assist in building a water line from the City of Hastings to the Village with the remaining funds constructing a 50,000 gallon water tower and refinancing an existing water loan. The water improvement project will serve over 200 rural residents.

“This is an excellent project that offers a feasible, long term solution to Trumbull’s water concerns. Trumbull will receive its water supply from the City of Hastings alleviating the Village’s struggles with the high nitrate levels in their current water supply,” stated Janice Stopak, community programs specialist for USDA Rural Development.

USDA funds provided through the Emergency Community Water Assistance Grant program and the Water and Waste Disposal Loan and Grant program. Loan terms 40 years at 4.25 rate of interest.
